EXPERIENCE

Founding Engineer

April 2026 – Present

Kyaaloon.in

Remote

- Built a zone-based e-commerce backend in Django Ninja to handle dynamic inventory filtering and order routing based on user pincodes.
- Implemented a cart and checkout state machine that locks in price snapshots at the time of order to prevent data modification during payment.
- Integrated Razorpay to process payments and handle webhook events for asynchronous order state updates.
- Mapped mobile client GPS coordinates to active delivery zones using reverse geocoding to automate warehouse assignment.
- Built a dedicated dashboard for delivery personnel to track and update live order statuses.

PROJECTS

Grid-Load Forecast | *Python, GitHub Actions* | [GitHub](#) | [Live](#)

June 2026

- Built a daily updating public dataset of India's electricity demand by continuously pulling from an open government source, currently exceeding 100,000 rows.
- Set up a GitHub Actions pipeline that handles data extraction, processing, syncs to Kaggle, and deployment with no manual intervention.
- Deployed a live static web dashboard on GitHub Pages showing a rolling 48-hour forecast, refreshed daily by the automated pipeline.

OmaConnect | *Bash, Python, D-Bus* | [GitHub](#) | [Registry](#)

Aug. 2026

- Built a desktop status bar plugin for Omarchy Linux to monitor phone battery, 5G signal strength, and trigger quick actions (SMS, ping, file sharing).
- Used Bash scripting and Linux D-Bus to query device status from the KDE Connect daemon and handle automatic daemon restarts.
- Published to the official Omarchy Plugin Registry, adding customizable keyboard shortcuts and Vim-style navigation for desktop users.

Personal Website | *Hugo, Cloudflare Pages* | [GitHub](#) | [Live](#)

Jan. 2026

- Built a static portfolio website utilizing Hugo and Go templates to create reusable components.
- Deployed via Cloudflare Pages using automated CI/CD pipelines through GitHub.

TECHNICAL SKILLS

Languages & Libraries: Python, C/C++, SQL, Bash, NumPy, Pandas

Frameworks & Databases: Django, Django Ninja, PostgreSQL (Supabase)

Infra: self-managed Azure VPS, self-hosted agent tooling (Hermes Agent)

ACHIEVEMENTS

Competitive Programming: Max Rating **1575** (LeetCode). Maintained high consistency with 500+ active days.

Problem Solving: Solved **500+** problems across platforms (450+ DSA). Leveraged Python for rapid algorithmic logic and C/C++ for fundamentals.

Hackathons: Ranked **4th** in Juethack 2025.

Open Source: Active contributor in the Linux, AI and Developer ecosystems.

EDUCATION

Jaypee University of Engineering & Technology

Guna, MP

Bachelor of Technology in Computer Science

Aug. 2024 – June 2028 (Expected)

Jawahar Navodaya Vidyalaya

Nagaur, Rajasthan

Senior School Certificate Examination (CBSE Class XII)

May 2023
